## FOREWORD

Our current "QUALITY SALE" is made up of a select group of consignments and the variety once again is such that it offers material in virtually all price ranges and all series. This sale is well balanced with an outstanding group of foreign sets to please the growing demand for these popular coins. The Foreign Gold segment is one of the best we have offered.

The U. S. series from Colonials thru rare U. S. Territorial Gold coins should be studied carefully. Very seldom will you be offered such an outstanding variety, including your choice of three "Stellas" (\$4.00 Gold pieces). From the initial group of Colonials thru the coinage of Hawaii there are coins that should fit nicely into your collection.

1970 has been a banner year and has seen a rising demand in practically all facets of our hobby. With the rapid disappearance of "common" silver coins from circulation throughout the world it is our opinion that prices will increase sharply on all top quality coins in this metal. We suggest that you assemble the "silver" sets now and offer our services to you.

In this catalogue our estimates are only a guide and we have tried to take into consideration the rarity and demand. As in the past the prices realized represent the true market value and we suggest you order this list so you can be knowledgeable as to the current prices.

Please check your bid sheet carefully for any errors, and kindly read the terms of this sale.

We do not accept buy bids and we act only as your agent in this sale. No charge is made for this service and we try to purchase the lots as reasonably as we can over the next highest bidder. If you have any questions concerning any specific lots or need guidance please call or write.

Our sincere thanks for your patronage and continued interest in our "QUALITY SALES". Very best wishes for a Happy and Healthy New Year and may you continue to enjoy for many more years your interest in numismatics.

Thank you,  
ABNER KREISBERG

THE EXCESSIVELY RARE 1875 THREE DOLLAR GOLD

- 1666 1875 Proof. This is the Charles L. MacKenzie specimen sold by Stack's in October 1965 at \$14,000. Their catalogue description was as follows (in part). "This specimen has retained most of its brilliance but the edges are somewhat damaged. We can assume that the coin had a gold band around it and the damage occurred when the band was removed. The coin, however, was not soldered. This coin is still very attractive and probably if it were in a lucite holder the edge damage would hardly be noticeable". Inasmuch as the coin has only suffered some minor rim damage and nothing more serious it should realize a price near that of the last record i. e. (the Pierce coin at \$21,000) . . since that sale this rarity has sold in excess of \$25,000.
